Why did you take this course?

Adult/Child CPR/AED		Adult	Child
1	Verbalizes that the scene is safe		
2	Checks for response – tap and shout		
3	Yells for help		
4	Tells someone to phone the EMS number (911) and get an AED (for adult only)		X
5	Checks for no breathing or only gasping (minimum 5 seconds; max 10 seconds)		
6	Locates hand placement for compressions Moves clothes out of the way of the chest Lower half of the breastbone; 1 or 2 hands for child		
7	Delivers first set of compressions Gives 30 compressions in 18 seconds or less		
8	ADULT: Gives 2 breaths with a mask CHILD: Gives 2 breaths without a mask At least 1 breath results in visible chest rise Breaths given & compressions started within 10 seconds		
9	Delivers second set of compressions Gives at least 23 of 30 compressions in the correct chest location		
10	ADULT: Gives 2 breaths with a mask CHILD: Gives 2 breaths without a mask At least 1 breath results in visible chest rise Breaths given & compressions started within 10 seconds		
11	Instructor says “You have just completed 5 sets of compressions and breaths” Leaves to phone 911 and get an AED (for child only)	X	
12	Turns on the AED immediately after arrival		
The next step is done only with a manikin with a feedback device, such as a clicker or light. If not STOP THE TEST			
13	Delivers third set of compressions of adequate depth Acceptable if at least 23 of 30 compressions indicate a depth of at least 2” (Adult) or about 2” (Child)		

Infant CPR		<input checked="" type="checkbox"/> if done correctly
1	Verbalizes that the scene is safe	
2	Checks for response – tap and shout	
3	Yells for help	
4	Checks for no breathing or only gasping (minimum 5 seconds; max 10 seconds)	
5	Locates hand placement for compressions Two fingers just below the nipple line on the breastbone	
6	Delivers first set of compressions Gives 30 compressions in 18 seconds or less	
7	Gives 2 breaths without a mask At least 1 breath results in visible chest rise Breaths given & compressions started within 10 seconds	
8	Delivers second set of compressions Gives at least 23 of 30 compressions in the correct chest location	
9	Gives 2 breaths without a mask At least 1 breath results in visible chest rise Breaths given & compressions started within 10 seconds	
10	Instructor says “You have just completed 5 sets of compressions and breaths” Verbalizes need to leave to phone 911	
The next step is done only with a manikin with a feedback device, such as a clicker or light. If not STOP THE TEST		
11	Delivers third set of compressions of adequate depth Acceptable if at least 23 of 30 compressions indicate a depth of about 1 ½”	

TEST SUMMARY

PASS = Steps all done correctly **NR = Needs remediation** Indicate PASS or NR

Instructor signature affirms that skills tests were done according to AHA Guidelines.

1 rescuer CPR /
AED

Infant CPR

Instructor Name: _____ Date: _____

FIRST AID SKILLS		
Skill Step	Critical Performance Steps	<input checked="" type="checkbox"/> if done correctly
Removing Gloves		
Instructor tells student " EMS has arrived and takes over. You may now remove your gloves."		
1	Removes gloves by gripping one glove on the outside near the cuff and peels it off, inside out	
2	Cups the inside-out glove with the gloved hand	
3	Uses 2 fingers of the bare hand near the cuff to peel the second glove off, with the first glove inside it	
4	Verbalizes the need to dispose of gloves properly	
Finding the Problem		
Instructor tells student, " You will demonstrate finding the problem for a person who is sick or injured. The person will act and respond, as a person who is actually sick or injured. You find a coworker lying on the floor. You may begin"		
1	Verbalizes that the scene is safe	
2	Verbalizes putting on gloves	
3	Checks for responses – tap and shout If the sick or injured person does not act accordingly, the instructor tells the students, " The person does not move or respond in any way when you tap and shout"	
4	Tells someone to phone the emergency response number (or 911) and get an AED	
5	Checks for no breathing or only gasping Minimum 5 seconds, maximum 10 seconds If the student indicates that the person is not breathing, the instructor corrects the student by saying" The person is breathing"	
6	Looks for obvious signs of injury	
7	Verbalizes checking for medical identification jewelry	

Skill Step	Critical Performance Steps	<input checked="" type="checkbox"/> if done correctly
Using an Epinephrine Pen		
Instructor tells student " A coworker is having a severe allergic reaction, has an Epi pen & needs help using it. You have completed all previous steps & are now ready to use the Epi pen. Show steps for using Epi pen"		
1	Holds Epi pen in the fist while not touching either end	
2	Takes off the safety cap	
3	Presses the Epi pen firmly against outer side of the persons thigh, halfway between the hip and knee, and holds in place for about 10 seconds	
4	Removes the Epi pen by pulling the pen straight out from the leg	
Stopping Bleeding and Bandaging		
Instructor tells student, " You will demonstrate stopping bleeding and then bandaging a small cut on this persons forearm. You have completed all previous steps and are now ready to begin"		
1	Has the person place pressure over the cut with clean dressings while the student puts on gloves	
2	Verbalizes putting on gloves	
3	Applies pressure to the bleeding area After about 15 seconds, the instructor tells the student " You can now see blood on the dressing. The bleeding has not stopped"	
4	Adds more dressing and presses harder to stop the bleeding After about 15 seconds the instructor tells the student "The bleeding has stopped"	
5	Applies a bandage over the dressing
